

Volunteering in Madrid

RONALD McDONALD CHILDREN FOUNDATION

Last Friday 20th February, Pilar Méndez from the AML & Compliance team and Borja Maza, Simona Senatore and Juan Armendáriz from the Internal Audit team spent an evening at the **Fundación Ronald McDonald** in Madrid.

The Ronald McDonald House Charity provides support to families whose child is in medical treatment that requires the family to stay several weeks or months away from home at a hospital facility.

In most cases, this support is provided to families that cannot afford the cost of relocating and allows them to have a place for families to call home so that they may stay close to their child.

As part of our volunteering activity, we organized a party to celebrate Carnivals. We decorated the whole house for the occasion and we all dressed up in costumes. Children converted into princesses and superheroes. Thanks to a donation from our Charity Fund we prepared a snack for everyone and we had lots of fun.
